<sup>1</sup>"In your state, do any schools serve as Medicaid providers by providing mental health or social services to students?" (State Mental Health and Social Services Questionnaire, Item 4)

<sup>2</sup>"Currently, how many school-based health centers offer mental health or social services to students in your state? School-based health centers are health centers on school property where enrolled students can receive mental health and social services, including diagnostic and treatment services. These services are usually provided by a psychologist, social worker, or counselor, or mental health or social services professional." (State Mental Health and Social Services Questionnaire, Item 24)
